

How to Access Statista Off-Campus

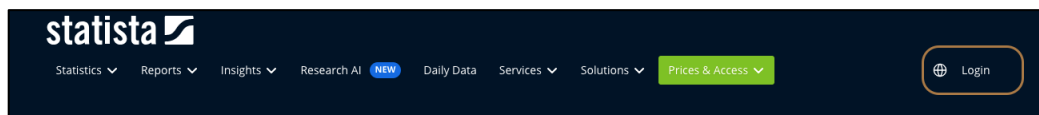

Description: Current York University students, faculty and staff can access Statista on and off-campus. When on-campus the link to Statista in Omni should automatically give access. **When off-campus a few steps must be taken first to get access to Statista as outlined below to obtain access.**

1. First click on the **link to [Statista](#) provided in the Omni record** which appears in the **View Online** section of the record, as shown below, **or use the link provided here.**

2. The Statista interface will load. Click on the option to **login** in the **top right area of the screen.**

Note: It may seem off-campus you have access already and don't need to login, as the Statista search interface loads. **You can run searches but note that you won't be able to get access to much content unless you login** and a price tag will appear for many reports. Therefore, follow the login instructions below.

3. A pop-up box will appear after you select login. **Ignore** the section that prompts you for an **email and password**. Scroll down and click on the **Campus access** link.

4. A new screen loads. **Ignore** the section in the top area of the screen titled **Get access through your university or school**. **Scroll down** to the **If you have access** section. In the **Institution Login** section it prompts you to access Statista through York University's authentication system.

Note that it is **not enough** to simply select the **Check access button**. You must click on the **drop-down menu arrow** first and **select York University** from this dropdown list as shown below.

5. Next you will be prompted to **login to Passport York**. Enter your login credentials:

6. Next the **Statista interface will load** giving you the ability to **search and access content**. You will know you are logged in if you go to the **My Account** section and it says **Campus License International** there.
